

StrikeX 2023 Q3 Newsletter.

TOKENISATION • RWAs • SELF-CUSTODY • TRADEX • STRIKEX WALLET • TRADESTRIKE • STOCK TOKEN BRIDGE • XCHAIN • STRX

As we move into the third quarter of 2023, we take a look back at what has been a **monumental** period for StrikeX, and look to the quarter ahead as we continue to build on momentum for what promises to be an action-packed 2nd half of the year.

SPOTLIGHT

Recent news & developments.

Already, 2023 has seen some exciting developments in the perceived future use case of blockchain technologies. Among these, StrikeX's focus on **Real-World-Assets (RWAs)** stands out, with both **Citigroup** and **Blackrock** highlighting the tokenisation of RWAs as the **most crucial** aspect for the widespread adoption of cryptocurrencies.

Highlights

StrikeX & CMC Markets

This is a **significant milestone** for both companies and the digital asset industry. Combining StrikeX’s expertise in tokenisation and self-custody technologies with CMC Markets’ extensive experience in financial services, we are now well-positioned to bring tokenisation to the securities markets and address the critical questions surrounding the adoption of blockchain applications in regulated financial environments.

Board Appointments

We were delighted to welcome Laurence and Simon from CMC Markets PLC to our board. Laurence's and Simon's wealth of experience and expertise will be of **invaluable** benefit to StrikeX.

Laurence Booth

Laurence has more than two decades of experience managing, growing, and evolving core execution services across multiple asset classes in multiple geographies working for the world's leading investment banks. Prior to joining CMC to lead their transition from CFD provider to the full suite of execution services, Mr Booth held senior leadership roles with Morgan Stanley, **citi**, **NOMURA**, and **nikko am**.

Simon Campbell

Simon is Group Head of Trading at CMC Markets. He has been with the company for over 17 years and has held a variety of senior roles, including Head of Quantitative Analysis and Head of Quantitative Pricing. In his current role, Simon is responsible for the overall management of the Quantitative Strategies department, covering trading strategy, risk management, and front office development. He is also a member of the company's executive leadership team and is a CFA Charterholder. Simon has a strong background in quantitative finance and has a deep understanding of financial markets.

Products

StrikeX DeFi Crypto Wallet

We recently unveiled our extensive StrikeX Wallet V2 roadmap. With work already underway, Q3 will see the first of **13** scheduled upgrades pushed for release.

- | | |
|--|--------------------------------------|
| 1 P/L algorithm replacement | 7 Arbitrum integration |
| 2 Ledger Integration | 8 V2 In-app Browser/Marketplace |
| 3 Buy/Sell Check out workflow V2 | 9 In-app notifications |
| 4 Integral swap replacement
including cross-chain | 10 Banxa on/off ramp service |
| 5 Biometrics on/off function | 11 NFT Integration |
| 6 Matic integration | 12 Service availability/Support page |
| | 13 V2 Interface UI update |

Products

TradeX

Q3 Will see the highly anticipated launch of our DeFi exchange upgrade.

This significant upgrade includes:

- 1 Improved Data
- 2 Faster Charts & Orderbooks
- 3 UI Enhancements
- 4 Crypto Screener with live data

Q3 will also see the release of a TradeX Roadmap for users to know what more to expect from our DeFi offering.

Products

TradeStrike

With our partnership and investment from CMC Markets now secured, we have everything we need to push on towards the release of our flagship product TradeStrike; a 24/7 digital marketplace for tokenised assets.

Q3 will see an update on TradeStrike progress, as well as a dedicated AMA to cover all things TradeStrike.

The STRX token will act as the exchange token of the TradeStrike Platform, acting as a gateway to access all assets and to receive discounts on fees.

Stock Token Bridge & POA Network

Following our recent investment and partnership with FTSE 250-listed CMC Markets, the time has come to take the StrikeX eco-system to the next level. This quarter, the StrikeX team will embark on a European journey to hold workshops in Germany with our development team. These workshops will focus on the development of our groundbreaking Stock token bridge and POA Network.

StrikeX to unify growing ecosystem of web3 products under our own POA blockchain. [Read the article.](#)

The STRX token will act as the exchange token of the TradeStrike Platform, acting as a gateway to access all assets and to receive discounts on fees.

There is no denying that our recent **groundbreaking** announcement of investment and partnership with CMC Markets is the standout achievement for StrikeX since our inception, what it brings in terms of resource, expertise and credibility are **monumental**.

Armed with everything we need to bring our vision for StrikeX to fruition, Q3 will see further strides toward achieving that goal. The tokenization revolution is coming, and it's **ours** for the taking.
